

The stylish all-rounder.

Whether for touring relaxation or sporty thrill, the amazing FX HO simply delivers. On the hunt for a WaverRunner designed to maximise the riding pleasure? You will love this machine, whether you're alone, or with your family and friends!

From our unique, revolutionary RiDE system and lightweight NanoXcel2® hulls, to our exclusive electronic control systems, to the top-of-the-range supercharged four-stroke 1812cc engine in our most powerful model, the innovative technology and engineering that's integral to every Yamaha is right at the cutting edge.

Advanced design and sheer build quality add even more to the package, and the result is a guaranteed excellent performance and thrill, together with the all-important rider comfort, required for a Cruiser!

- Unique 4-step tilt-adjustable steering system
- Electronic Reverse with traction control
- High Output 1812cc engine with EFI
- Revolutionary RiDE™ system - intuitive control
- Cruise Assist, No Wake mode and electronic trim
- Industry-first colour touch-screen instruments
- Multi-Mount system for your accessories
- Deep step & dual handles for easy re-boarding
- Footwell drainage system

Powerful High Output 1812cc engine

Power delivery from the large displacement, High Output 1812cc engine is exhilarating – and the Hyper-Flow jet pump with its three-blade impeller helps turn that power into electrifying acceleration. The Electronic Fuel Injection (EFI) gives the smoothest possible power output and efficient, economical running, even on regular unleaded fuel.

Aerodynamic shape and hull design in NanoXcel2

The sleek aerodynamic body shape and hull design on the FX models is crafted in Yamaha's unique NanoXcel2 material. Impressively light, yet rigid and strong, it gives these machines awesome on-water performance with stunning acceleration, higher top speed, greater economy – and an even more comfortable ride.

RiDE system (Reverse with Intuitive Deceleration Electronics)

The revolutionary RiDE system transforms your riding pleasure, bringing a feeling of confidence to every rider... at every level. Simply pull the throttle lever on the right hand-grip to move forwards and accelerate. Pull the lever on the left grip to slow down or to reverse. Yes, it's really that simple.

Electronic control – another riding revolution

Our sophisticated Electronic control system will delight you with its "intelligent" features. Use Cruise-Assist to set and maintain exact speeds, the three-position No Wake Mode to navigate through low-speed areas, and electronic Reverse-assist and TDE (Thrust Directional Enhancement) for ultra-low speed manoeuvring and docking.

Drive Control system

This latest generation of our well known "L-mode" system allows you to not only pre-set a top-speed limit, but also an acceleration curve, making it the perfect partner when you're towing tubes or wakeboards. You can also lock in lower speed settings for novice riders – and set a steady speed on longer trips, in order to achieve maximum economy.

Comfort, footwell drainage and easier re-boarding

From tilt-adjustable steering to a three-person seat, including a large swim platform with a deeper and wider step and dual handles for re-boarding, this FX really does offer more comfort. Plus a handy footwell drainage system.

Engine

| | |
|-------------------|---|
| Engine type | 4-stroke;1.8 Liter High Output;4-cylinder |
| Displacement | 1,812 cc |
| Bore x stroke | 86.0 mm x 78.0 mm |
| Compression ratio | 11.0 : 1 |
| Pump type | 155 mm Axial Flow |
| Fuel | Unleaded Regular Gasoline |
