

## Pure power unleashed.

Experience the very top of the VX range with the most powerful engine of the family. 4 cylinders and 1.8L of high output for the purest excitement are combined with exceptional cruising luxury. For the CX Cruiser HO compromise is not an option.

From our unique, revolutionary RiDE system and lightweight NanoXcel2® hulls – to our exclusive electronic control systems – to the top range 4-stroke 1812cc engine in this stunning VX Cruiser HO - the innovative technology and engineering integral to every Yamaha is right at the cutting edge.

Attention to detail, advanced design and sheer build quality add even more to the package - the result is a guarantee of excellent performance and premium comfort, the best of both worlds!

- New easy-access multi-function 4.3" colour display
- Excellent new ergonomic driving position
- Integral factory-fitted Bluetooth speaker system
- Revolutionary RiDE system for intuitive control
- Powerful High Output 1218cc 4-cylinder TR-1 engine
- Huge and practical storage – 114L capacity
- Large, watertight glovebox & separate phone storage
- Adventurous new styling, colours and graphics
- Convenient self-draining footwells
- Easier re-boarding with more

## New 4.3" multi-function colour display with fast access

Among its many talents, this clear and easy-to-read display helps you control and monitor all the systems on board, using the fast-access buttons next to the handle bar. Top speed and acceleration limits can also be entered from here - along with the PIN code-activated learning and security settings. We put the latest technology to work for you!

## New seat design - more comfort and better handling

Both the super-comfortable 3-person CRUISER seat and the handlebar of the VX are new, narrower designs which provide an excellent ergonomic sitting and driving position. Together with the deeper, wider footwells and new-design grips, this gives (especially to the smaller rider) great control over the handling.

## Integral audio system takes your tunes on the water

The new VX Cruiser HO has another special talent – it can turn into a concert hall, thanks to its fully integrated, factory-installed Bluetooth sound system. The speakers are ideally positioned in the footwells and controlled from an easy-access panel next to the handlebar. A low-voltage regulator is fitted to protect the battery.

## RiDE system (Reverse with Intuitive Deceleration Electronics)

The revolutionary RiDE system transforms your riding pleasure, bringing a new feeling of confidence to every rider at every level. Simply pull the lever on the right hand-grip to move forward and accelerate – pull the lever on the left grip to slow down or reverse. Yes, with the bonus of Reverse Traction Control, it really is that simple!

## Powerful High Output 1812cc 4-cylinder engine

The VX Cruiser HO is powered by our largest capacity waveRunner engine, the innovative 4-cylinder, 1218cc High Output TR-1. This remarkably compact and lightweight unit packs a real punch and offers extraordinary acceleration and great top-end power, but with economy and reliability.

## Huge and practical storage facilities (114 Litres)

The latest VX has industry-leading amounts of stowage space, so that you can take everything you might need along with you. Not only is there huge under-seat and bow storage, but in addition, the very large, watertight glove box has blue LED accent lighting, USB and 12V outlets - even a handy space to secure and charge your telephone.

## Engine

Engine type	4-stroke;1.8 Liter High Output;4-Cylinder
Displacement	1812 cc
Pump Type	155mm Axial Flow

All information in this brochure is given for general guidance only and is subject to change without prior notice. We should all exercise **POWER WITH RESPONSIBILITY** and help preserve the great sporting opportunities and enjoyment we all derive from our involvement with personal watercraft. You must recognise too, that your Yamaha WaveRunner is actually a boat, so please learn and follow all the rules of the sea and waterways, take professional instruction where possible, and obey local rules and regulations, which may differ greatly from area to area. The photographs featured show boats being driven by professionals and no recommendation or guidance in respect of safe operation or style of use is intended or implied by the publication of any of these images. Read all instruction materials carefully before setting out and **ALWAYS** wear recommended protective clothing and a life preserver or lifejacket when boating. **NEVER DRINK AND RIDE.**
